...If their bodies are perfectly sculptured

And their faces look supple and youthful...

Their Ultimate Beauty Secret is probably  
**LPG® Endermologie®**

Sometimes nature needs a little help to achieve the perfect, sculptured body.

Working out at the gym does not guarantee perfection in all areas.

Sometimes physical exercise and training needs a little scientific support for problem areas to achieve perfection.

\*Opinion Way study conducted on 1,044 women.

All women are united in their concern about the ageing process, however at Endermospa UK, we address all the issues and offer a full remit of treatments for the face and body.

We help women to feel more confident about themselves, their beauty and their bodies. LPG® Endermologie® is a scientifically proven treatment (145 studies) which helps women to regain or maintain, youthful skin which is soft and supple. Facial contours are more defined, bodies are slimmer, more sculptured, firmer and problem areas such as cellulite, can be successfully addressed.

Women are now more confident in their own right; business people, mothers, wives, girlfriends. Women juggle so much both in their professional and personal lives. Having the ability to manage lifestyles which are full of responsibility, necessitates energy and vitality.

By looking after ourselves, we are stronger and more confident to help others. Beauty enhances lifestyle and a feeling of wellbeing. Endermospa UK was set-up to help women take back control of their lives, to manage their beauty and body physique.

*"For me personally and having benefitted from the treatments and miraculous results, I felt compelled to help others. I therefore invested in the most technologically advanced equipment, the highest level of training for the most effective treatments and the benefits of complementary, top quality products."*

My mission was to bring to the UK, the Endermospa concept which specialises in LPG® Endermologie®. The scientifically developed treatments can successfully focus upon facial and body anti-ageing, slimming, contouring, lymphatic drainage and sculpture.\*

The sophisticated products and treatments are particularly popular in France (where the technology was developed) and also Hollywood – especially amongst women who are focussed upon their appearance (for instance film stars and celebrities) and the fashionable elite.

# Frequently Asked Questions

## Q. What is the evidence to support the claims?

A. LPG® Mecano-Stimulation™, is internationally recognised from 145 scientific studies. It is 100% natural, non-invasive and non-aggressive, anti-ageing technique for the face and body. LPG® Endermologie® is the first FDA approved treatment for reducing the appearance of cellulite whilst resculpting body contours and fighting localised fats resistant to diet and exercise. The treatments can potentially, firm, slim and tone.

## Q. How does Endermolift™ work?

A. The machine stimulates fibroblasts which helps the skin to activate collagen for preservation, elastin for suppleness and hyaluronic acid for volume and hydration. Endermolift™ is the first and only technology (in the world) which has been scientifically proven to increase natural hyaluronic acid synthesis by 80%.\*

## Q. Do these treatments work for everybody? Even men?

A. These treatments are lifestyle related. If you have an LPG® Endermologie® body treatment, it will not be maintained if you put on weight. If considering these treatments, honestly address any lifestyle issues that could negate results. And yes, we do have male clients too. Even Matthew McConaughey uses LPG® Endermologie®.

## Q. I am thinking of having liposuction. Is this better than a body treatment?

A. Sometimes liposuction can leave patients with residual bumpy fat. An LPG® Endermologie® body treatment can firm out these areas and leave your skin looking firmer, slimmer and more sculptured. The treatment is especially effective on stubborn localized fat (abdomen, gluteal fold, thighs and saddlebags) and on cellulite. It refines the figure, firms and smooths the skin and the cellulite gradually disappears. Therefore and in answer, LPG® Endermologie® Body can maximise the benefits of liposuction surgery as complementary, or even as a stand-alone treatment.

# Services

**A preliminary appointment is essential so the LPG® Expert Practitioner can assess your medical condition and suitability for treatment using the LPG® evaluation criteria. A recommendation will then be offered based upon your requirements and long-term objectives.**

## LPG® Endermologie® – Face – Endermolift™

The LPG® Endermolift® face treatment stimulates the delicate skin on the face and neck using the patented Lift Treatment Head. Results are cumulative for the future health of your skin but also immediate which is perfect for that special occasion. LPG® Endermolift® stimulates the fibroblasts to start producing more collagen and elastin production and it is the only technique in the world that can increase hyaluronic acid by 80%. Skin becomes firmer, lines and wrinkles are filled in, facial contours are reshaped and you can potentially, achieve a natural lift.

## LPG® Endermologie® – Body

For over 30 years LPG® has made its state-of-the-art devices available to beauty conscious men and women. It is advisable that to maximise the results from any Endermologie® body treatments, is to maintain a balanced diet and to take regular exercise. The stimuli sent to the cells act as a ‘helping hand’ to increase the potential.

Making Endermologie® an aspect of your regime means choosing an intelligent and responsible, scientific approach to the preservation and maintenance of your face and body. Can help to release fat and also firm the skin whilst reducing cellulite. LPG® Endermologie's®

experience confirms and strengthens our belief in the skin’s powerful abilities for incredible transformations and boosting of rejuvenating substances, collagen and elastin, for firmer skin, activating fat cells’ elimination in order to reshape your figure, and to stimulate fluid exchanges for a deep, detoxifying effect.

0 risk.  
0 side effects.

Completely  
non-invasive,  
non-aggressive,  
pleasurable  
and safe.

At Endermospa UK, we believe that a healthy and scientifically developed regime, is an essential requirement for a beautiful figure and radiant, clear and youthful skin.

## LPG® – Skin Products – Each Problem Has Its LPG® Solution

Endermospa UK supplies the full range of face and body LPG® Endermologie® products.

## Skinceuticals

The spa offers a full range of these advanced and specialist products. Whether used in conjunction with a treatment or as part of a separate skincare regime, the promise is to ‘improve the appearance of skin health’ through advanced skincare products.

Beauty can be a  
relaxing, luxurious  
and pampering  
experience.

A very special,  
gentle and personal  
indulgence.

## Testimonials From Satisfied Clients

Celebrities who have used LPG® Endermologie® include Beyonce and Angelina Jolie.

*"Having received a treatment at the Endermospa UK clinic, I thoroughly enjoyed the gentle and relaxing experience. I was shocked that just a one hour treatment, could help my skin's texture and a subtle lift to my jawline. Love it!"*

**Michelle, Essex**

*"I am thrilled with my LPG® Endermologie® treatments. I never expected to see such great results on my buttocks, legs and stomach. Without doubt, my legs are much smoother and I can see the difference in the texture of my skin. With regards to my face, although I have had botox and fillers, I feel the LPG® Endermologie® facials have enhanced the results. The treatments have been amazing."*

**Valerie, Abridge**

*"I love the LPG® Endermologie® face and body treatments. Going to Endermospa UK is an enjoyable experience. As soon as you walk into the spa you feel welcomed. Sue and the other therapists make sure you feel uplifted and always happy by the time you leave. Even if not having the treatments, I would still like to see the team. I have had a course (face and body) and noticed that my skin has more radiance, firmness, a youthful glow, and there is improved elasticity. I am always complimented that I look youthful and healthy."*

**Anita, Coopersale**

*"Am so happy with the results. LPG® Endermologie® has really improved my hips and thighs and my skin is so much smoother. I always ensure that I have an appointment in the diary for a body treatment and am a very satisfied and regular client."*

**Laura, Epping**

*"A welcoming, professional and friendly spa where you're always greeted with a smile. Sue and the team take time to understand your goals and strive to make them a reality. Having tried many treatments in the past, I've found LPG® Endermologie® to be the most effective. Give it a go. You won't be disappointed."*

**Amanda, Bristol**

Please see website for more testimonials from long-term, satisfied clients.

*"There is an internationally respected beauty secret... An anti-ageing strategy that is implemented over time and through a natural application of a scientific approach. At Endermospa UK, we support men and women who want to be assured of an intelligent vision of beauty and health."*

*“My mission statement is to help women find their inner beauty – physically, emotionally and from a focal point of personal sensuality, confidence and femininity.”*
